

SIAM ES Square Mouth Shovel

with 71cm Wood Rod & D-Handle
FRONT VIEW

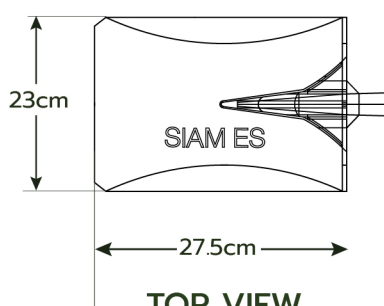

PRODUCT DESCRIPTION

Crafted for efficiency and ease of handling, the Square Mouth Shovel with D-Handle is designed for optimal scooping, lifting, and material transport. The shorter wood rod offers superior control in confined spaces, while the D-Handle enhances grip, making heavy loads easier to manage. Its tempered steel blade ensures long-lasting performance for professional and personal use.

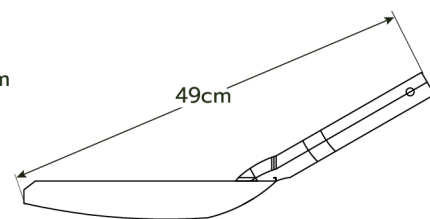

APPLICATIONS

Ideal for construction, agriculture, gardening, and landscaping, this shovel excels in material movement, leveling, and precision scooping, particularly in confined workspaces.

SPECIFICATIONS

Shovel Length	100cm
Square Head Length	27.5cm
Square Head Width	23cm
Square Head Weight (Typical)	730g

KEY FEATURES

- Tempered Steel Blade – Increases durability and wear resistance.
- Compact 71cm Wood Rod – Shorter handle enhances maneuverability and control.
- D-Handle Design – Provides a firm, comfortable grip for better handling.
- Square Mouth Design – Optimized for scooping, lifting, and material movement.
- Reinforced Connection – Ensures secure attachment between handle and blade.
- Versatile Use – Perfect for handling soil, sand, gravel, and general cleanup tasks.

KEY DIFFERENCE

Compared to the 120cm Wooden Rod version, the 71cm version with a D-Handle offers greater grip and precision, making it ideal for tasks that require closer control and easier handling of heavy materials.
